

**ŞENSAC**  
YASSI METAL SAN. ve TİC. A.Ş.

## ENVIRONMENTAL POLICY

As SENSAC, our company environmental policy consist of;

- To protect and to ensure the safety of the environment in each of our activities,
- To determine the environmental impacts of the activities implemented in all our workplaces, to prevent or minimize the pollution caused by the identified risks and to use our resources in a way that creates the least waste,
- To ensure compliance with DIN EN ISO-14001:2015 Environmental Management System conditions and continuous improvement of the system
- To allocate resources for the protection and improvement of the environment, and to use scientific and technological developments in this regard,
- To comply fully with environmental laws and regulations,
- To continuously increase environmental awareness in the institution by regular trainings, to ensure that our employees have the necessary awareness to protect the environment,
- To consider environmental approaches of organizations in the selection of our suppliers; to establish an open, active and productive cooperation with the suppliers we work with by following our environmental policy and to increase the environmental awareness of these organizations,
- By having the awareness that the environment we are in is our legacy; we aim to reduce natural resource use, prevent pollution, dispose waste properly and to support efficient energy use at the highest level.

ŞENSAC Yassı Metal San. ve Tic. A.Ş Company, in order to fulfill the commitments defined above, its senior management will take the task of providing and continuously improving the resources related to all kinds of people, infrastructure and working environment required throughout the enterprise.
